

# Gibraltar Secondary School

## Academic & Career Planning Handbook

## **Introduction to Wisconsin Academic & Career Planning (ACP)**

Academic and Career Planning, or ACP, is a student-driven, adult-supported process in which students create and cultivate their own unique and information-based visions for post-secondary success, obtained through self-exploration, career exploration, and the development of career management and planning skills. The Wisconsin Department of Public Instruction (<http://dpi.wi.gov/acp>) in the PI-26 legislation requires public school districts to provide academic and career planning services to students in grades 6 through 12. Each school district must provide evidence of their implementation of PI-26. This documentation was created as evidence of implementation.

### **PI-26**

The Gibraltar Board of Education "shall provide access to an education for employment program approved by the state superintendent". The purpose of education for employment programs is to prepare elementary and secondary pupils for employment, to promote cooperation between business and industry and public schools, and to establish a role for public schools in the economic development of Wisconsin. This chapter defines education for employment programs, describes the process for approval of education for employment plans, and establishes approval criteria for education for employment plans, and establishes approval criteria for education for employment programs.

The PI-26 Administrative Rule pertains to students in grades 6-12, includes developing a long-range plan with school district staff and community stakeholders, requires posting this plan to the district's website, and requires that this plan be reviewed annually.

### **Career Cruising**

Career Cruising is a web-based platform that Gibraltar Area Schools use to help students build self-awareness, explore interests, research educational opportunities, and save information to an individualized plan for post-secondary success. Career Cruising provides career and education information to help individuals meet their career goals.

### **SMART Goal for 2017-2018 School Year:**

By the end of the 2017-2018 school year, all Gibraltar students in grades 6-12 will complete all tasks in the Career Cruising program.

## **Non Discrimination Policy**

The Board of Education is committed to providing an equal educational opportunity for all students of the district.

The Board does not discriminate on the basis of race, color, religion, national origin, ancestry, creed, pregnancy, marital status, parental status, sexual orientation, sex, (including transgender status, change of sex or gender identity), or physical, mental, emotional, or learning disability ("Protected Classes") in any of its student program and activities.

The Board also is committed to equal employment opportunity in its employment policies and practices as they relate to students. The Board's policies pertaining to employment practices can be found in Policy 1422, Policy 3122, and Policy 4122—Nondiscrimination and Equal Employment Opportunity. (Policy 2260)

## **Feedback/Concerns**

All school rules are subject to regular review. Students or parents who have a suggestion for a change or a new procedure are encouraged to talk to a coach, advisor, teacher, or administrator. All suggestions will be given due consideration and presented to the Superintendent and the Board of Education where appropriate.

Individuals who are not satisfied with a decision or discussion regarding school procedures should contact the building principal. A complaint or challenge that remains unresolved after discussing the matter with the building principal must be submitted in writing and will be reviewed by the superintendent. The superintendent will confirm or reject the principal's decision. If the concerned party is not satisfied with the superintendent's decision, an appeal can be made through the school board.

## Personalized Education Period (PEP) Homeroom

Many of the ACP activities at Gibraltar Secondary School (Grades 7-12) will take place during students' PEP homerooms with their assigned teachers. PEP homeroom teachers work with a core group of students throughout the student's academic career to promote strong school relationships and provide a consistent foundation for achieving college and/or career goals.

Students remain with the same PEP homeroom teacher during 7<sup>th</sup>, 8<sup>th</sup> and 9<sup>th</sup> grade. In 10<sup>th</sup> grade students transition to a new PEP homeroom teacher and will remain with that homeroom teacher until the end of their 12<sup>th</sup> grade year.

PEP homerooms will have assigned ACP activities at least once per month. PEP homeroom teachers are responsible for:

1. Conducting assigned ACP activities and assisting students with the process
2. The ACP Team will designate ACP Activities required in Career Cruising. The PEP Homeroom teacher will be responsible for assisting their students with completing of the requirements and completing the "MY PLAN" portfolio.
3. Overseeing students' progress toward completing ACP activities. Ensuring all required ACP activities are completed within their assigned students' grade level.
4. Collaborating with other PEP homeroom teachers and ACP Team as needed
5. Conduct activities that foster relationship building
6. Support a positive environment where students feel cared for and comfortable
7. Monitor progress in classes and course choices which help students achieve their ACP goals
8. Engage in regular goal setting and grade checks with students
9. PEP Homeroom Teachers are a go-to person for their homeroom students and positively mentor them throughout their three years together.

# Door County Business & Education Partnership

from: <http://www.doorcountybusiness.com/business-assistance/dkbep/>

The Door County Economic Development Corporation (DCEDC) recently unveiled a new, four-year, comprehensive workforce development plan, *Grow Door County - A Workforce for the Future*, which includes three thematic initiatives:

1. "Inspired" Business & Education Partnerships - connecting students and industry to heighten career awareness.
2. Working with local employers to develop the resources necessary to successfully retain and recruit new employees and new families to our community.
3. Working with local municipalities to build the inventory of housing units available, focusing on additional multifamily housing options.

The Door County Business & Education Partnership is the one-stop access point for business and education connections in Door County, providing referral services to match business and education needs and resources. The Partnership strives to ensure that all area students have the skills and behaviors necessary to succeed in the ever-changing global economy, and that every student graduate from high school successfully prepared to enter skilled entry-level employment, technical college or training, or a post secondary university or college. The Business & Education Partnership believes that "Education is Everybody's Business!"

## **Career Awareness**

### **-Job Shadow Program**

Allows students the opportunity to explore local careers of interest by job shadowing someone working in that occupation. The Partnership sets up the job shadow with the business, student and teacher/counselor.

### **-Group Tours with Businesses**

The Partnership sets up tours at local businesses for students/teachers to show what the workplace looks like and the types of jobs available.

### **-Career Day**

The Partnership contacts employers and sets up the Career Day activity at NWTC. It gives students an opportunity at the 8th grade level to start learning about the different careers that are available within our community.

### **-Tool Time, Careers on Wheels**

These fun career exploration events are focused on grades 2-6. It is never too early for students to dream about their future. The Partnership contacts employers and sets up these activities which are done in Sturgeon Bay, but are great activities to be expanded to the other school districts. These occur on a three year rotation.

### **-Contact between Business and Schools**

The Partnership can help the schools and students with contacting businesses to help in the exploration of careers, class projects and guest speaking.

## **High School Home Construction Program**

Area high schools will collaborate with the local construction industry on the construction of a student-built home. Students participating in this program will learn and become skilled in all the trade area associated with home construction. Graduates of this program will be well prepared to join the workforce or continue their education. This will be a credited class offered through the high schools in addition to advanced placement at NWTTC.

## **High School Certified Nursing Assistant Program**

This program will begin to be offered to high school juniors who may be interested in pursuing a career in health care. Students will attend a training course at the local technical college and will complete clinical experience in training to become a Certified Nursing Assistant facilitated by a registered nurse at an area health care facility. Following this course, CNA students will participate in the previously CBED funded Youth Co-op program and placed in hospitals, long term care facilities or home health agencies to receive on-the-job training. Seven healthcare facilities will be working with area youth on this program.

## **Youth Co-op Program**

We are offering a "try it on for size" career exploration program to high school juniors and seniors. The class would be a semester long course where a student would be released from school the last two hours of the day to work in a job that interests them and they may want to pursue post high school. The Co-op program is offered for credit through the school district and students could be paid for their time.

## **Advanced Manufacturing Field Study Class**

This program will be offered to high school students involved in both business and technology programs and will become a part of the high school curriculum. Area businesses will do a speaking tour to each of the six high schools we serve, highlighting their businesses and the careers that are available to students within that business. A week after the visit, students would take an in depth tour of the business and learn first hand what careers are available and the benefits to entering a career with that company. The impact of visiting the businesses in the industrial park to dispel the myths of manufacturing will have a large impact on educating our youth and possible future manufacturing employees.

## **Business and Technology Education Roundtable (Tech Teachers Council)**

High School tech education programs are feeder programs to the workforce. This program will bring business leaders from manufacturing together with area technology teachers and administrators to discuss the businesses desired skill sets for young adults who will be entering the workforce. Schools will have the opportunity to express the support they need from area businesses to turn out students who are ready to enter the local workforce. In discussions with local business leaders we have heard over and over that students do not have the skill sets they are looking for when they exit high school. Meetings with teachers have revealed that they would love to have feedback from businesses about what they could include in their daily lessons that would have "real world" impact. The result in these meetings and curriculum realignment would impact all students whose teachers participated and businesses would feel they have some stake and involvement about how students are being prepared for post high school endeavors.

## **Students with Disabilities & ACP**

ACP is for **ALL** students grades 6-12 in the Gibraltar Area School District.

In grades 7-12, all students have the opportunity to participate in:

1. PEP Homeroom ACP Activities
2. Student, Parent, and School Counselor Individual Planning Conferences in Grades 10 and 12
3. Completion of their Career Cruising "MY PLAN"
4. Freshmen Orientation
5. Additional Services are provided when appropriate through community organizations
6. 8th Grade Career Fair
7. Junior Year Wisconsin Education Fair attendance

## **Advanced Placement Course Offerings & Dual Credit Options**

Advanced Placement Offerings

- AP Chemistry
- AP Psychology
- AP Environmental Science
- AP Computer Science A
- AP Spanish Language & Culture
- AP Physics 1 OR C
- AP English Literature & Composition
- AP English Language & Composition
- AP United State Government & Politics
- AP Computer Science Principles
- AP United States History
- AP Biology
- AP Calculus AB
- AP Calculus BC
- AP Statistics
- AP World History

## **Wisconsin Youth and Course Options**

GRADE: 11- 12

CREDIT: To Be Determined

PREREQUISITE: Satisfactory attendance and graduation status

DESCRIPTION: The Wisconsin Youth Options program allows public high school juniors and seniors who meet certain requirements to take post-secondary courses at a UW institution, a Wisconsin technical college or one of the state's participating private nonprofit institutions of higher education. Approved courses can count toward high school graduation as well as for college credit.

The program opens the door to greater learning opportunities for motivated students who are considering a technical career, wishing to begin college early, or those who want to prepare themselves to enter the workforce immediately after high school graduation.

Under youth/course options a student will not have to pay for a college course if the school board determines the course qualifies for high school credit and is not comparable to a course already offered in the school district. If the course is approved by the school board, the student can receive both high school and college credit upon successful completion of the course. A student who successfully completes high school graduation requirements will earn a high school diploma regardless of whether the requirements were met while attending the high school or a college.

# KNOW, EXPLORE, PLAN, AND GO

The ACP Model is KNOW-EXPLORE-PLAN-GO

- **KNOW-Who am I?**
  - Self-Awareness activities
  - Exploration activities
  - Individual goal-setting
- **EXPLORE-What do I want to do?**
  - Career awareness assessment
  - Career research
- **PLAN-How do I get there?**
  - Connecting middle and high school instructional activities with preparation to enter a particular field of interest.
  - Work-based learning opportunities
  - Extra-curricular and community-based learning experiences
  - Postsecondary training options
  - Financial plan to cover cost of postsecondary training
- **GO-Do IT!**
  - Update the "MY PLAN" throughout the school year
  - Adapt/Modify intentional sequence of courses
  - Adapt/Modify personal goals
  - Adapt/Modify career goals
  - ACP Conferencing (Viking Visits)

## Career Cruising Activities

Each year, students will be required to complete certain activities in their Career Cruising account. These activities follow the KNOW-EXPLORE-PLAN-GO Model. The table below depicts the activities required at each grade level. Students complete these activities during their PEP Homerooms with their PEP Homeroom teacher. Their progress and plans are reviewed with the students and parents during their individual planning conferences (Viking Visits). The table has an "X" in required areas, though students have the ability to update all areas of Career Cruising at any time.
